Careful review and examination of the subject application are noted and appreciated. Applicant's representative thanks Examiner Williams for the indication of allowable matter.

A R T R E F E R E N C E S

Applicant's representative notes that the PTO-892 included with the Office Action in the present case had the incorrect serial number listed. The Examiner apparently listed the serial number from co-pending application 09/822,112. Applicant's representative is concerned that the references are indeed included in the file history. Since the additional references, namely 5,914,996 and 4,465,982 are included on the PTO-892 of the present application, the serial number appears to be a simple typographical error (e.g., not just a photocopy of the PTO-892 of the co-pending file). However, if the Examiner intended something different, Applicant's representative requests that the Examiner initiate a telephone interview.
